You have to compete in 60 races on three different tracks. Your goal is to finish on top of the league table and gain as much money as you can! The year is 2106. After the collapse of the human race, man is forced to live in large biodomes. Several years ago, man found it was possible to drive like real cars. He built the first biodome cars. They are dangerous. A year before, a mysterious disease broke out in the city. It can't be found in human or animal cells. It appeared in the bodies of the first biodome drivers. These so-called TEST-cars, as they called themselves, suddenly started to outperform the biodomes on the tracks and started to win. The authorities decided that it was the TEST-cars fault that the biodomes were collapsing. The secret was revealed... Gameplay Race against your friends or against the AI using any race track. -New Survival Character -Frances Flappy Bird: Chapter 4 It's been a month since Nathan left to look for a solution to his parents problem. Since then he hasn't heard from him, but Nathan knows what he's capable of and he won't abandon his new mission, even if he has to cross the country alone. Spencer, finally excited to reach the end of the school year, said he is very excited about his next mission, he will be travelling to the place where the mall is. He doesn't know why he hasn't asked about this yet, but he must have had something else on his mind. And so he went to the mall. The mall was huge, and it was not easily to find your way around. But Spencer knew where to go, and he could find any kind of help he might need. After several hours of looking for the exit, he finally found it, and with the help of a guide, he finally found his way out of the mall. But what he found was terrifying. The mall was full of skeletons and zombies, and everyone was very upset about something that happened at the mall that night. *** The mall used to be full of life, but then something bad happened. A girl told the police that something bad happened at the mall. She was very scared about something that happened that night at the mall, something terrible. She had seen a man surrounded by zombies, and he had locked himself in the bathroom. They got the key from the girl, and they went to the bathroom to see what was going on. The door of the bathroom was locked, but they managed to get it open. The inside was full of... As the group of people had finished retelling the story of what had happened, Frances came over to the table. She was starting to get worried about Spencer, since she saw that he had a very small amount of friends. She was always a little worried about him, but he seemed to be very happy recently. Frances started to tell the group what she had seen that day, about the mall that was supposed to be the new mall, but that turned out to be a mall full of blood and skeletons. She said that it was so scary that she didn't want to go back there. The group of people listened to her story, and they were all scared to go back there. The others were very surprised

What's new in Star Sky:

By The-Steel Watch 1 Favourite 0 Comments 1K Views So y'know I love Kamen Rider otherwise known as Kamen Rider Gaim on TV because it's so much fun and has lots of awesomeness. I absolutely love the universe Kamen Rider Gaim is from and the way they build that universe and the story of them. The universe is built on the oh so many incredibly complex things that have occurred and obviously a lot of people are just really smart. Yet the people from the universe haven't really advanced in much but look how many different disciplines you can take something of something else and you end up with something totally different. There's alternative universes you can go to and slightly change some things and a lot of places on the planet you can have mind control powers and the ability to make energy weapons, not to mention more. But man how cool is it when we can generate our own worlds like Kamen Rider Gaim because that's just like real magic. Kamen Rider Gaim has a lot of fun and is a great show because there's so much beyond the show. I love the Kamen Rider line of shows because you become so accustomed to the sense of energy and the sense of a being. You can see just the most well written scripts from this show or those characters in some other shows to the creator. What's so nice about Kamen Rider is that there's so much out there and so much awesome stuff and that it's still the same basic thing, stuff you see on the show plus more. So one day I was looking at wikipedia and I noticed the editors of wikipedia have created this awesome thing based on a book written by two of my co-blogger brothers Lane and Mallory. Their book is Kamen Rider Ex-Aid and Pegasus Prime. So I had a lot of fun with this piece and I tried to create the best version of Pegasus Prime I thought possible and I'm pretty proud of it. A city with a forest in the middle. It's an oasis in a desert, even in such a backward country. That's what you think, at least. Although they're forbidden, some people who live in the forest grow herbs and purify water to sell. The city has slowly suffered a decline, and in this environment, the evil mermaids and sirens come to the surface. These sirens will eat the people that cannot defeat them, and corrupt the people living in the city. So, what is the city where the sirens came from? The city where the mermaids and sirens want to go to. Welcome to the city that never was... Why can't you just let it be... *Warning*** In this game, you will meet monsters that were corrupted by sirens. For players who don't know too much about horror games, I recommend not touching the files. I'm not joking.
